Do you believe it? These rappers are even better than My Chemical Romance and Fall Out Boy. I wish I lived in the world where these rappers would be heard everyday. So many rappers are great, but their songs don't catch on. Somebody help me understand, and please explain. Why are Public Enemy's 'Fear of a Black Planet' and 'Welcome to the Terrordome' better than Metallica's 'Crash' and 'One'? I love both bands, but what are you talking about? Somebody help me understand, and please explain. Why are Public Enemy's 'Fear of a Black Planet' and 'Welcome to the Terrordome' better than Metallica's 'Crash' and 'One'? I love both bands, but what are you talking about? :rolleyes: well the first one has a strong message that many people can relate too. "Welcome to the Terrordome" is just about the racist America while the other one is just about a guy getting his ass kicked. "Crash and One" are kinda similar but one is about a girl and the other is about a guy, "Breathing Heat" is what you're looking for, it's about a guy and his best friends journey through life in the process. [quote]Welcome to the Terrordome[/quote] Where Blacks are at the top of society. Blacks are the leaders in the businesses, Black owns the company. Thats why the song is so powerful. Blacks are the white man's slaves. They're the ones who rape them at night. [quote]Just as long as we're having fun I'll make you stand for a time I'll dress you up in rags Just as long as we're having fun Public Enemy is one of my favorite rap groups. I love how they talk about things that aren't talked about a lot and use strong metaphors and words to make their points. The other one is just about getting your ass kicked, I love that part but I can't really think of any other particular parts of the song that I like. I prefer Public Enemy, and I think that is because of the strong messages the group had. They wanted to use non-white people as a way to educate white people. And they had songs about the bad politics of the US government such as the 1984 presidential election where he was basically a lone candidate. They were great
